FARM LANDS TO TRADE FOR HOUSES

In advertising—and good business stationery is advertising—it's not so much the taste of the man producing the matter, as the consideration of what will appeal to the class of people he desires to reach. Still, you yourself will find a keen personal satisfaction in using the crisp, clean work of **Henderson Brothers.** May we show you samples at 279 Garry Street?

There is every opportunity for the agent to strengthen his service department by improving upon his client's literature.

No matter how high-class and capable an agent is, assistance from an experienced printer will not come amiss.

Henderson Brothers

of Winnipeg

have turned out probably more exceptionally good literature than any other printer in the west

There service is made up half of excellent technical workmanship aud half of personality.

Let them strengthen your campaign with high-grade booklets or catalogs.

A MAN who uses a cheap paper for his business stationery isn't necessarily "mean." The chances are, he's thoughtless. But many of the men who receive his letters will not accept this generous view.

And among that number may be the very man he wants most to influence.

So he should use **Henderson Brothers' Printing.** They do good work—some people say the best. May we show you samples? At 179 Garry Street

Huttig's "Green Flag" Rubber Roofing

Vitrified Sewer Pipe

Is invaluable for draining low lands; is unequalled for well cribing; is impervious to the action of frost and water; for road culverts and small bridges beyond comparison; for chimneys and chimney lining is better than iron.

Builders' Supplies

Sewer pipe; stone of all descriptions; white and grey lime; cement; wood fibre and hard wall plaster; hair; mould, fire and common brick; fire clay; Keene's cement; expanded metal; metal & wood lath; river and pit sand, gravel, etc.

Huttig's 'Green Flag' Rubber Roofing.

Is the best roofing that is made; is sold under a positive cash guarantee; is cheaper than wood or metal shingles, is more durable and more satisfactory.

A MAN who uses a cheap paper for his business stationery isn't necessarily "mean." The chances are, he's thoughtless. But many of the men who receive his letters will not accept this generous view.

And among that number may be the very man he wants most to influence.

So he should use **Henderson Brothers' Printing.** They do good work—some people say the best. May we show you samples? At 179 Garry Street

. . . PREFACE . . .

IN presenting this, the 30th volume of Henderson's Winnipeg City Directory, for 1908, we would thank the general public for the appreciative reception accorded the previous issue, and trust that this edition will, in as great a measure, meet with their approval. The same difficulties have been met with as last year in the moving of businesses from one location to another, but special pains have been taken by the publishers to follow the changes and give the public accurate addresses.

The business community is heartily commended for its kindly recognition of the advertising merits of the publication, in return for which we have added to the typographical appearance of the book. It is printed on a higher class of paper and extra attention given to the binding, in order that the volume may be more substantial and serviceable.

The increase of population, while not so marked as in 1907, is gratifying, in that it shows that the growth chronicled in other years was a substantial one. In spite of the stringency of the money market throughout the world, together with its natural tendency to temporarily impede progress, this city has held its own, in fact has added to its population. In the Directory of 1907, there appeared 47,636 names. The volume this year contains 48,650, an increase of 1,014 names, which represents the addition of 2,916 persons to the population of our city.

In estimating the population of cities it is customary for directory publishers to adopt a multiple by which to multiply the individual names. In the case of Winnipeg, we use a very low multiple as compared with the majority of publishers, viz., 2.875. Multiplying the individual names in this Directory, 48,650 by 2.875, we estimate the population of the City of Winnipeg at 139,869, including the immediate suburbs of Norwood, St. Boniface, St. James and St. Charles, an increase in population of 2,916 over the previous year.

In 1907 there were 2,758 firms doing business in the city; the Directory for 1908 shows the names of 2,643. This slight decrease is probably accounted for by the absorption of many smaller firms by larger companies, and does not necessarily reflect on the volume of business.

Altogether a spirit of hopefulness and loyalty pervades the community, and we are pleased to assist in chronicling another year's progress.

Faithfully,

HENDERSON DIRECTORIES, LIMITED

WINNIPEG WATERWORKS.

The water supply for Winnipeg is obtained from artesian wells; eight pumping engines are used in the system. A softening plant is also operated, capable of softening two and one-half million gallons per day.

The average daily consumption in December 1907, was 4,500.000 gallons per day.

The approximate daily capacity of the wells is 8 000,000 gallons and upwards.

The pumping capacity of the system from the wells is 15,000,000.

In addition to the above pumps, the system possesses 10,000,000 gallons capacity of pumps for pumping stored water from reservoirs into the mains.

The pumping machinery consists of four pumps, each capable of pumping five million gallons in twenty-four hours. Two pumps pump from wells to softening plant, the other two from softening plant reservoir to the city main The engines are of the most hodern type.

The boilers for supplying steam to the pumping and electric lighting engines are seven in number, with superheaters and mechanical stokers.

In connection with the system there is a 6,000.000 gallon reservoir.

The total length of water mains December, 1906, was 106 miles

For better fire protection, a High Pressure Special Fire Service Waterworks is under construction, having a capacity of 12,000,000 gallons per day against 500 lbs. pressure. This service will be operated by 2500 h. p. gas engines. There will be about three miles of special high pressure water main in the business district and 100 special hydrants.

WINNIPEG GRAIN AND PRODUCE EXCHANGE

The Winnipeg Grain and Produce Exchange is by far the largest and most important one in the Dominion of Canada today; and is constructing a magnificent exchange building in which to more satisfactorily handle the ever-increasing volume of business created by the enormous crops of Manitoba and the Northwest Territories.

Although the Exchange's future trading market was but inaugurated in February,, 1904, its quotations are regularly supplied by the telegraph companies to the leading grain and produce associations of Canada, Great Britain and the United States, upon whose quotations they exert a strong influence.

RELIGIOUS CENSUS

Report on the religious census taken by the Manitoba Sunday School Association in December, 907.

After carefully examining the reports, it is estimated that if the returns had been entirely complete we would have had figures about as follows. on a basis of 100,000 population:—Presbyterian, 18,-0000; Church of England, 17,000; Roman Catholic, 15,000; Methodist, 13,500, Baptist, 5,000; Hebrew, 5,000; Evangelical Lutheran, 7,000; Congregational, 3,200; Salvation Army, 1,000; various other denominations, 7,300; no preference of any kind, 8,000. The churches are now in a much better position to make their influence felt in Winnipeg than ever they were. With an annual census as we propose in the month of October, the people of Winnipeg will be reached more effectively than in any similar city on the continent.

THE UNIVERSITY OF MANITOBA

Broadway, West of Kennedy Street.

The University of Manitoba, established by the Act of the Local Legislature in 1877, has the sole power of conferring Degrees in **Arts, Law,** and **Medicine** in the Province of Manitoba.

Degrees of **Divinity** may be granted by the various Colleges affiliated with the University, provided that all candidates for the Degree of Bachelor of Divinity, not graduates of this or any other University, shall have passed a satisfactory examination on the subjects of the First and Second Year in Arts as prescribed by the University, Greek being compulsory; and such Graduates in Divinity have in the University the same rights and privileges as other Graduates.

The Government of the University is vested in the Chancellor appointed by the Lieutenant-Governor-in-Council, and a council of fifty-five members, composed of representatives from each of the affiliated Colleges, the members of Convocation, the College of Physicians and Surgeons of Manitoba, the College of Pharmacy, the Faculty of Science and the Provincial Government.

The general superintendence of all examinations is entrusted to a Board called the Board of Studies, composed of members of the Council elected annually, as follows: two by each of the Affiliated Colleges in Arts, two by the Graduate Representatives, one by the College of Physicians and Surgeons of Manitoba, one by the Manitoba Medical College, and one by the Council.

It is the duty of the Board also, to report to the Council, when they see fit, on the studies of the University, and other matters connected therewith, and generally to discharge all duties that may be assigned them by the Council.

MOST advertising agents whose main argument is service, give their clients full measure, except in one respect.

THIS is the preparation of printed things, such as booklets and catalogs. The agent either ignores this phase of the matter entirely, or turns out for his client mediocre stuff.

Don't Lend Your DIRECTORY!

The patrons of our Directory are frequently inconvenienced by

BORROWERS;

not the stranger or private citizen, who steps in, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference, yet are TOO MEAN to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks unless you send for it before.

These same borrowers tell our Canvassers that they have no use for a Directory.

There is every opportunity for the agent strengthen his service department by improvi upon his client's literature.

No matter how high-class and capable an age is, assistance from an experienced printer w not come amiss.

Henderson Brothers

of Winnipeg

have turned out probably more exceptionall good literature than any other printer i the west

There service is made up half of excelle technical workmanship aud half of personalit

Let them strengthen your campaign with high grade booklets or catalogs.

FOR GOOD DRIVERS

MOST advertising agents whose main argument is service, give their clients full measure, except in one respect.

THIS is the preparation of printed things, such as booklets and catalogs. The agent either ignores this phase of the matter entirely, or turns out for his client mediocre stuff.

TAKE advantage of the experience of

Henderson Brothers

of Winnipeg

LET them explain by interview or correspondence what great benefits their service affords at 279 Garry Street, Telephones 7224 and 7225, P.O. Box 39
